THE TORCH

"I caught the fire from
those who went before,
The bearers of the torch
who could not see.
The goal of which they
strained, I caught their fire,
And carried it, only a little
way beyond;
But there are those who wait
for it, I know;
Those who carry it on to
victory."

Dedication

THE LIBRARY OF VIRGINIA
RICHMOND, VA

OUR PRINCIPAL

TO THE CLASS OF "SIXTY FOUR"

It has been a distinct pleasure to have worked with each of you the past five years. We congratulate each of you on the completion of your high school work, a very important event in your lives.

It is generally agreed that change has characterized each age of human existence. It is also agreed that our age is producing more rapid and spectacular changes than ever before. This adds up to the fact that if we are to be engulfed by these mighty changes, we must never cease to study, to be alert, and to apply "critical" thinking to every situation.

Here is trusting that you will regard your graduation as an open door to more intensive preparation for better opportunity to serve humanity.

I will always be interested in hearing from you and to know of your successes or problems. St. Clare Walker stands ready to help you in anyway it can.

Charles I. Thurston,
Principal

SENIORS

CHARACTERISTICS OF A GOOD CITIZEN

In a democratic republic like the United States, a citizen plays an important role to make the government a success. He must possess an open mind and an awareness of the activities around him. He is constantly trying to seek ways in which he can better serve his country, state, and community.

As a citizen of the United States, he shares the privilege of voting. A good citizen seeks to find the best candidates to fill the elective positions and supports his candidate to the fullest. He may give financial aid to the best qualified candidates or he may give a party or dinner in order for the citizens of the community to get acquainted with the candidates. On election day, a good citizen may offer his services to carry other persons to the polls to vote.

A good citizen knows that he should obey the laws and should make sure that his behavior does not injure the rights of others. He is conscience about the appearances of the streets, parks, and other public facilities.

A good citizen is a civic-minded person who is interested in the welfare of the people. He tries through organization and individual work to improve the health, housing, and recreational and educational facilities of his community. He often spends long and hard hours without pay to promote the general welfare of the people. Some organizations play a vital part to the Americans, among them are the American Medical Association and the Society of Chemical Engineers, whose purposes are setting and maintaining standards of excellence and encouraging the advancement of knowledge; the American Legion encourages the acceptance of civic responsibility and contributes to health and sportsmanship, as well as helping to reduce juvenile delinquency by sponsoring programs for the teen-agers; the March of Dimes Drive fights the crippling disease of polio.

In a community like Middlesex, a good citizen participates in the workings of the P. T. A., the Red Cross, and the school's programs. The parents of the students of St. Clare Walker High School showed they were good citizens when they sponsored a "Hootenanny" for the students.

A good citizen is always trying to make his community, state, and nation a better place for all.

SENIORS OF "64"

Yes, we are the Seniors, the class of "64."
We have worked and played successfully, and
Now we receive our reward.

We have studied long, tiresome hours —
Both day and night,
To further our education, so as to be
Worthwhile in life.

We must face the world, as we travel far
And near, and leave thanks to our loyal
Teachers and parents, who have helped us
Who helped us, so dear.

Farewell, dear St. Clare Walker.
Farewell, Farewell.

Barbara Phillips

CLASS SONG

Tune Of "Sweet Genevieve"

Dear St. Clare Walker, we hate to leave,
Although our time is coming nigh;
But nothing will erase the memories of
Dear old St. Clare Walker High

We won't forget dear St. Clare Walker.
We leave our loyalty and trust.
We shall go forward in the world
And make you very proud of us.

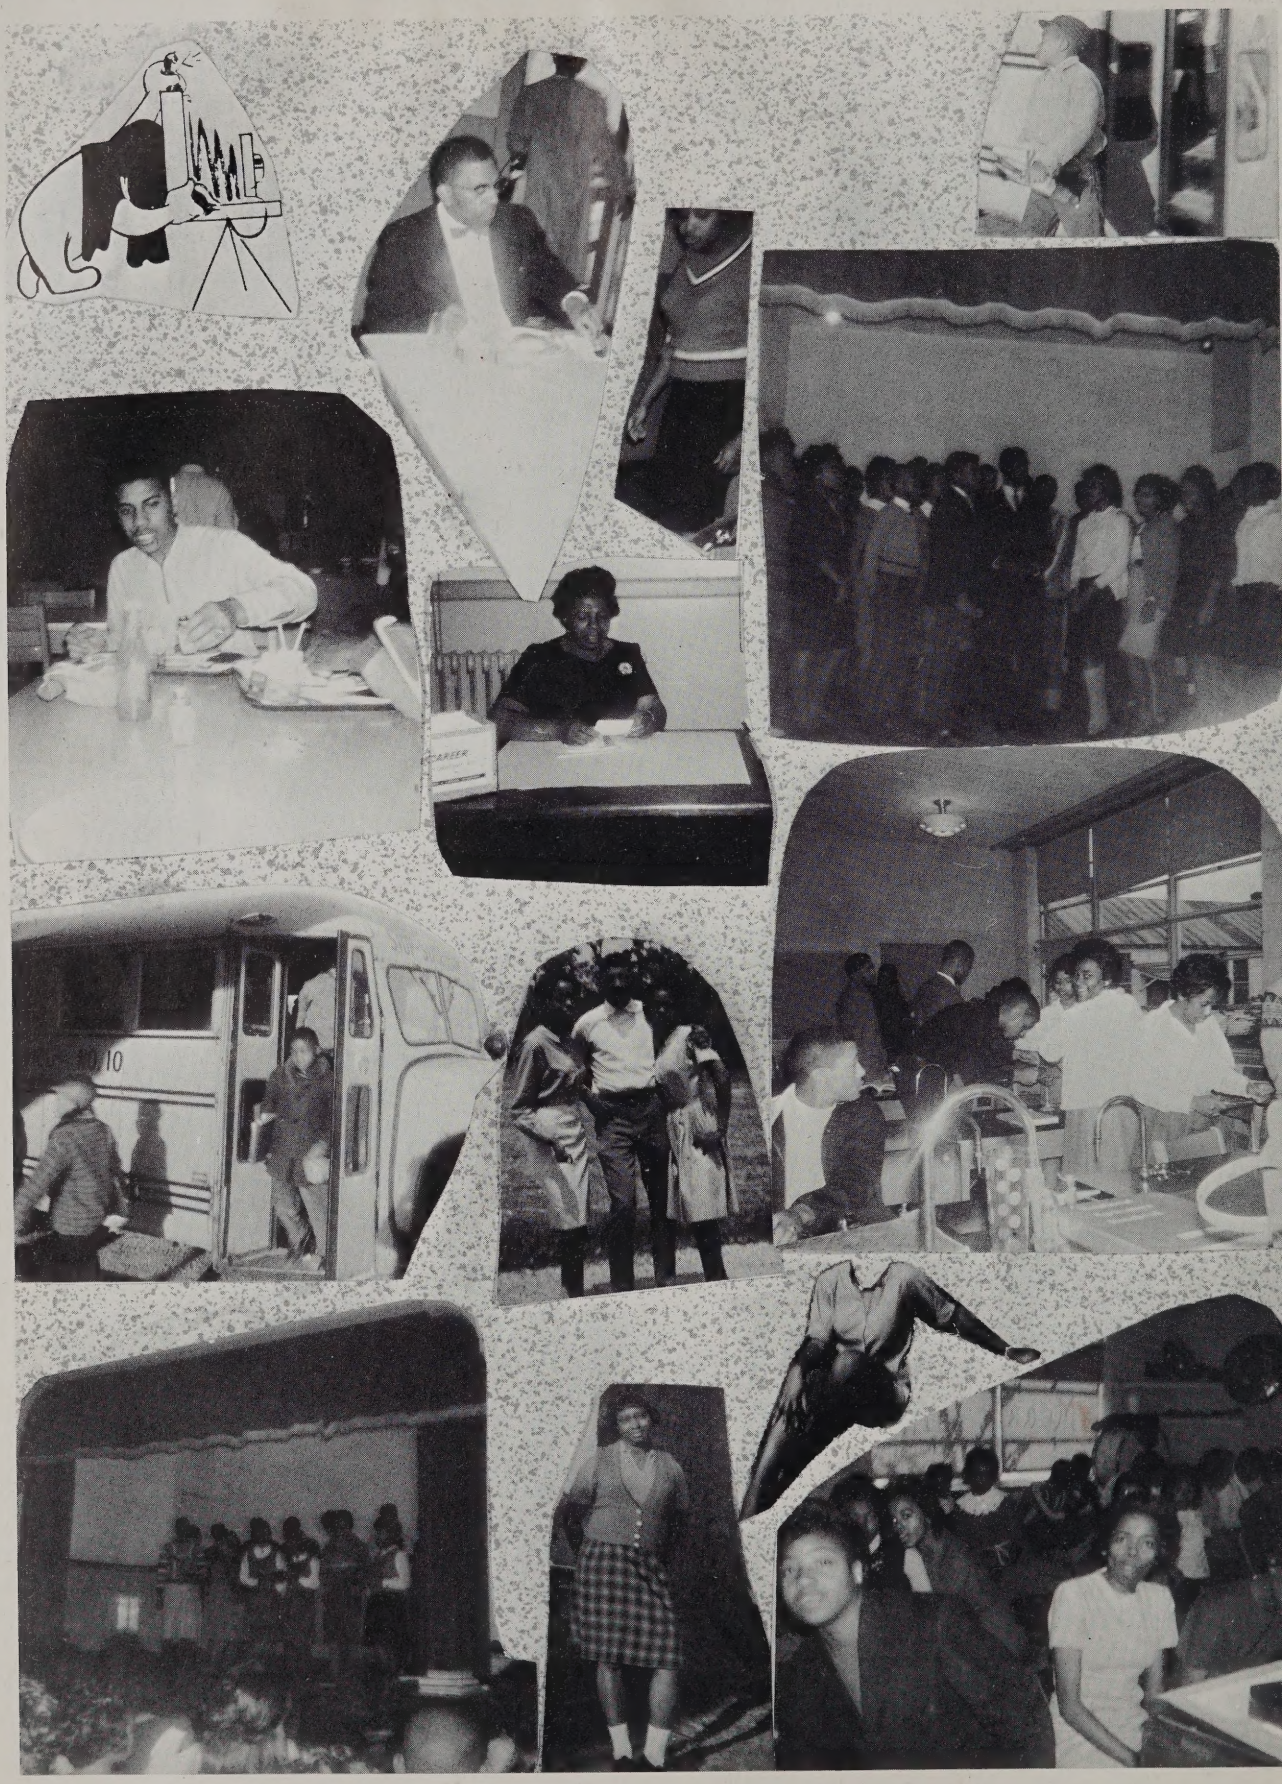
I'M WATCHING YOU



CLASS HISTORY

As thirty-seven eager beavers approach an important milestone in their climb to the zenith of success, and as they radiate with happiness and the anticipation of what lies ahead, they pause momentarily in reminiscent pensiveness to review the highlights of their journey.

One beautiful day in September, a fortunate day for St. Clare Walker, a group of forty-seven haughty students of Shiloh, Syringa, Mill Road, and Saluda Elementary Schools entered and set out on a laborious, but rewarding journey. Under the careful guidance of Miss Delores Douglas, we had little difficulty in adjusting ourselves to high school life. We soon became aware of our lessons and as a result, many of us made the honor roll.

It is known that people will "give up the ship." It was in our second year of high school when disaster struck, and we lost many of our students. This jolted our class, but did not dampen our spirit or hinder our progress. We soon became engaged in activities; and Joan Kidd, Paulette Lewis and Reynold Johnson entered into the Science-Math Conference and brought home many honors. Other members of the class joined extra-curricular activities. We soon gained the "get-up-and-go" attitude and a strong enthusiasm for the growth of the school.

As sophomores, our activities were many. The basketball team profited by having such wonderful players as: Welford Jarvis, Thomas Thornton, Marilyn Beverley, Malinda Iverson, Jacqueline Hopkins, and Reynold Johnson. The baseball team also was successful with Bruce Scott, Raymond Hammond and Carlton Johnson. These individuals are still helping St. Clare Walker to win top honors in the field of sports.

Our Junior year brought us more victories. Once more, the class could burst with pride, for we could boast of the skillful playing of Welford Jarvis and Thomas Thornton, who were selected for the All-State District Basketball Team. How proud were we when Henry Easton won the White Party nomination for President of the S.P.A. and won the election by a landslide. We were no less proud of the fact that Bruce Scott held the number one position in batting and pitching in baseball and Carlton Johnson, the second. This year, largely because of the proficient guidance of Miss Rosa Scarborough and Earl Peterson, we were able to have a successful Prom, which will be remembered.

Now we as Seniors are approaching our last exit of St. Clare Walker, under the careful, but firm guidance of Mrs. Cameron. Fate has been known to strike twice in the same place, and it did in our last year, when we lost five more students. We salute two of them, Jacqueline Johnson and Hollis Jordan, for they took a giant step and are now attending Middlesex High School. Today, after four years in high school, thirty-seven beavers will set out to take their places in the world. It is their hope that they maintain their places, their resourcefulness and at all times, portray the integrity, which represents the Walker High heritage.
